

# Master of Arts in Educational Innovation, Technology, and Entrepreneurship

**A degree program  
at the forefront  
of educational  
innovation**

## At A Glance

**Degree Type:** Master of Arts (M.A.)

**Program Duration:** 36 credit hours / 12 months

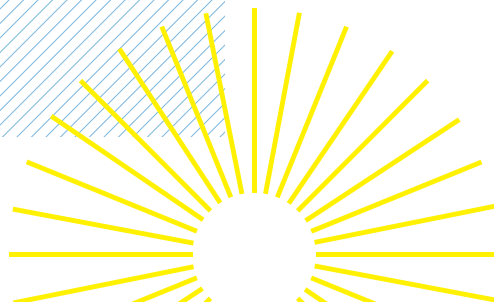

**Application Deadline:** Spring 2021 — October 13, 2020

Fall 2021 — February 9, 2021

(financial aid priority)

April 13, 2021 (final)

The Master of Arts in Educational Innovation, Technology, and Entrepreneurship prepares you to invent the future of education. You will learn from field leaders in the learning sciences and other disciplines on campus that include information science, computer science, business, and more. Site-based internships enable you to work with area EdTech leaders and innovators, offering invaluable hands-on experiences. At the conclusion of the program, many of our students have designed their own venture, built a prototype, and grown a professional network of edupreneurs and distinguished faculty members.

# Master of Arts in Educational Innovation, Technology, and Entrepreneurship

The forward-thinking MEITE program develops leaders in educational innovation who:

- Create learning environments of the future
- Design, scale and commercialize breakthrough educational technologies, pedagogy and curriculum based on the science of learning
- Inspire transformational change in technology-intensive learning organizations

After completing the MEITE program, you will possess the skills needed to launch your own venture or start a career in a variety of growing industries.
