

Master of Education for Experienced Teachers

**A flexible, part-time
program for full-time
educators dedicated to
improving the lives of
our youngest learners
and their families**

At A Glance

Degree Type: Master of Education (M.Ed.)

Program Duration: 33-36 credit hours / 2 calendar years

Application Deadline for Summer 2021: April 13, 2021

Through the Master of Education for Experienced Teachers (MEdX) — in the Early Childhood Intervention & Family Support (ECIFS) specialty area — you can continue to work while enrolled in this part-time program in which you gain the knowledge and skills needed to be a leader and researcher serving children and their families.

Our program emphasizes the early childhood professional's role in the promotion of developmentally, individually and culturally responsive assessment and instructional practices tailored to the needs of all young children and their families in home- and school-based settings.

Master of Education for Experienced Teachers

The MEdX/ECIFS program — convenient for working educators and combining in-person and online class sessions — provides:

- **Rich, practical courses and experiences** that incorporate research, technology-rich instruction, 21st-century standards for educators, and experiential education — with an emphasis on social justice, early childhood leadership and evidenced-based practices.
- **Leadership skills** in family-centered, inclusive practices that focus on young children at risk due to poverty, linguistic or cultural differences, and developmental delays.
- **Interdisciplinary perspective** that prepares graduates to work collaboratively on teams with parents and professionals from a variety of disciplines and agencies.
- **Licensure** in North Carolina Advanced/M-Level (if already holding A-level licensure).

How will you propel the world?
